

## **GY-HM850, GY-HM890 Menu Update Information (Ver.1.07)**

### **Ver. 1.07**

- **Added [Enhancement] item to [Detail Adjust...] in [Camera Process...]**

Improved detail quality of camera images.

On: Improved. (Default)

Off: Nearly identical to previous version's quality.

- **Added "Minimum (ZIXI Off)" option to [Latency] in [ZIXI Settings...]**

It is useful for ZIXI users to select this option in a stable network.

In this mode, ZIXI error compensation system does not work.

- **(E model only) Added "Turkish" option to [Language] in [System...]**
